# Investor Presentation

2023

COMPANY OVERVIEW

Go Secure Cloud is a globally-focused Microsoft security consulting firm with a   stronghold in the enterprise domain. As the industry-leading expert in Microsoft security consulting, we empower organizations to harness Microsoft's offerings without the excess financial drain of third-party software, ensuring their IT infrastructure remains resilient and modern.

THE PROBLEM

❑ **Ignorance is Costly:**
Companies splurge on third-party software unaware of Microsoft's built-in security.

❑ **Unexplored Potential:**
Microsoft's massive $31 Billion investment in enterprise security remains underutilized.

❑ **Security Gaps:**
Inconsistent security measures put companies at risk, despite having Microsoft licenses.

CURRENT MARKET

The enterprise world is swiftly adopting Microsoft's suite, yet the untapped potential of its security services is vast.

- ❑ **Microsoft Dependence**:Majority of companies rely on Microsoft Word & Outlook.

- ❑ **The Security Landscape:** Microsoft emerging as the future of cybersecurity.

- ❑ **Increased Adoption:** A surge in businesses purchasing Microsoft licenses.
